

Norr Systems ranks among top 50 Singaporean firms

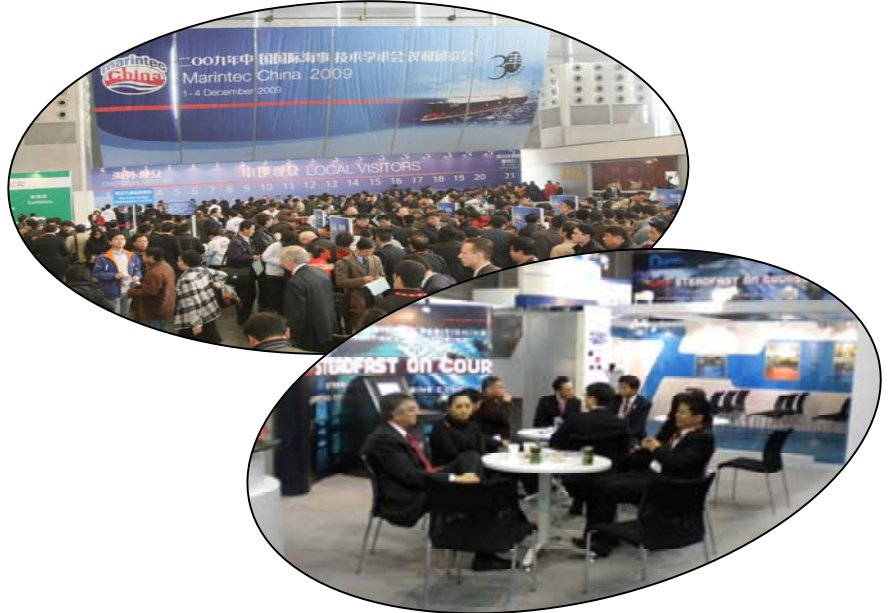

Norr Systems again ranked as among the top 50 companies in Singapore, this time for its outstanding performance for 2009.

Norr Systems has been on the list for the past several years. After this achievement, the company commits to continue delivering the best solutions ever available to the marine, offshore, and power industries. The firm intends to be among the top global leaders in the marine businesses.

Singapore 500 is an important reference to the yearly audited financial performance of the country's most successful corporations, including small and medium-sized enterprises. The rankings serve as a form of recognition to outstanding and profitable business operations and standards upheld by deserving companies. It also recognizes firms' hard work and strong commitment to attainment of success across all industries. Significant business criteria are considered to come up with the annual rankings.

Norr Systems participated at 2009 Marintec China

Norr Systems Pte Ltd participated at the recently held Marintec China. The trade exhibit was held on 1- 4 December at the Shanghai New International Expo Centre. It was the second time that Norr Systems participated in the Marintec Exhibition.

Our booth was visited by numerous Chinese shipyards operators and other potential clients. The company's participation in the trade event was seen by the industry as an active partaking in the prospects brought about by the irrefutable shipbuilding market.

The trade exhibit provided the company a venue to showcase its cutting-edge Dynamic Positioning System. Norr Systems is one of the approved and endorsed Dynamic Positioning Training facilities by The Nautical Institute of the UK, thus its Free DP Introductory Course received a tremendous response.

With the training facility located in our office, Norr Systems is able to deliver DP training which include below courses:

- The Nautical Institute Scheme Program
- DP Basic/Induction (NI Certification)
- DP Advanced/Simulator (NI) Certification
- Familiarization

For more information, please contact our Accredited DP instructor at +65 6785 0500 or info@norrsystems.com.
